What can U say,  
but Anderson is  
one of a couple  
of authors to  
have written  
seminal text on  
multivariate  
statistical  
analysis. One  
should have a  
background in  
univariate

analysis (e.g.,  
Hogg, or  
possibly Rao).  
Although  
Anderson reviews  
matrix theory,  
at least a  
university level  
course is  
required.
