This is a fast-paced introductory course to the C++ programming language. It is intended for those with little programming background, though prior programming experience will make it easier, and those with previous experience will still learn C++-specific constructs and concepts. This course is offered during the Independent Activities Period (IAP), which is a special 4-week term at MIT that ...

The New York 30 (NY-30) is a monohull sailboat designed by Nathanael Greene Herreshoff in 1904 as a class for the New York Yacht Club. It was the first one-design class designed for the Universal Rule of yacht measurement: "It is the first model I have worked on to be under the 1/4 beam length [Universal Rule] measurements, and I am well pleased with it, and also it has been more pleasure to ...
