The Crash of '79 is a book so real that its plot reads like today's headlines. The central figure is that world traveler, playboy, despot, and winter-sports enthusiast His Imperial Majesty the Shah of Iran, whose grandiose and megalomaniacal dreams, nurtured in secret and financed by oil money, engulf the lives of Erdman's characters, each of whom, unknowingly, is contributing to the event that will bring about the Crash of '79 and the demise of the industrial West.
