It's true that some people spend years studying French before they finally get around to speaking the language. But here's a better idea. Skip the years of study and jump right to the speaking part. Sound crazy? No, it's language hacking. Unlike most traditional language courses that try to teach you the rules of French, #LanguageHacking shows you how to learn and speak French through proven memory techniques, unconventional shortcuts and conversation strategies perfected by one of the world's greatest language learners, Benny Lewis, aka the Irish Polyglot. Using the language hacks -shortcuts that make learning simple - that Benny mastered while learning his 11 languages and his 'speak from the start' method, you will crack the language code and exponentially increase your language abilities so that you can get fluent faster. It's not magic. It's not a language gene. It's not something only "other people" can do. It's about being smart with how you learn, learning what's indispensable, skipping what's not, and using what you've learned to have real conversations in French from day one. The Method #LanguageHacking takes a modern approach to language learning, blending the power of online social collaboration with traditional methods. It focuses on the conversations that learners need to master right away, rather than presenting language in order of difficulty like most courses. This means that you can have conversations immediately, not after years of study. Each of the 10 units culminates with a speaking 'mission' that prepares you to use the language you've learned to talk about yourself. Through the language hacker online learner community, you can share your personalized speaking 'missions' with other learners - getting and giving feedback and extending your learning beyond the pages of the book . You don't need to go abroad to learn a language any more.

Contain a wide variety of material giving further opportunity for practice. Give practice in all four skills and train in language-learning strategies. Provide end of unit assessment tests, Epreuves. These are designed for assessment, but could also be used for extra practice in all language skills. Some worksheets provide suitable visuals or texts which can be use to make OHTs for language practice.

18 pages of material for students to read and discuss. Includes a variety of activities to help students understand the text and to practice their reading skills. The material is suitable for use in a classroom or as a resource for independent study.

A Vos Marquest! is an introductory course for students taking French as an option alongside their main degree course. It has been developed specifically for false beginners: students who have a slight acquaintance with the language. The course comprises a student's book, teacher's book and 180 minutes of audio (available for free download at <http://www.routledge.com/books/details/9780415157285/>) and, through fifteen chapters, follows the progress of an English-speaking student studying in Paris, whose achievements are designed to reflect those of the course user. Special features include: * activities involving pair and group work * an aid to self-assessment at the end of each chapter * hints on vocabulary learning * clear and accessible layout including integrated cartoons. The guidance offered by the teachers book is of particular importance, as lower-level classes in universities are often taught by native-speaking lecturers with little or no teaching training or experience.

This book offers a lively, communicative approach to modern languages, underpinned by a clear grammatical foundation. Straightforward explanations of the way that the language works are accompanied by regular reading and writing practice activities.

LIBÉREZ-VOUS DES CONFLITS La vie de Quentin est compliquée. Ses relations à la maison ou au travail sont souvent conflictuelles. Incompréhension et agressivité avec sa femme, tentatives maladroites d'arbitrage des différends entre ses enfants, ses collègues ou ses amis... Quentin n'a pas les clés pour enrayer les conflits. Nos relations avec les autres ne sont pas aussi harmonieuses que nous le souhaiterions. Malgré nos bonnes intentions, malentendus, tensions et conflits s'enveniment et causent des dommages qui auraient pu être évités. Pourtant, nos dysfonctionnements relationnels obéissent à une mécanique prévisible. Fabien Éon nous propose d'identifier les composants du conflit, ses facteurs déclencheurs, les spirales d'escalade. Nous découvrirons comment sortir du conflit quand il est installé, acquérir des compétences relationnelles, communiquer pour construire des liens durables, c'est-à- dire fondés sur la confiance... Préface de Jean-Louis Lascoux

The name of Francis Poulenc (1899-1963) was first brought to prominence in the 1920s as a member of Les Six, a group of young French composers encouraged by Satie and Cocteau. His subsequent fame spread well beyond France, and he is coming to be regarded as one of this century's most significant composers. His compositions are heard constantly in concert halls the world over, and numerous recordings, including complete sets of songs and piano music, have been released. Books, articles and more than a dozen doctoral dissertations have discussed his music. Carl Schmidt's catalogue of Poulenc's works represents the first comprehensive attempt to list an oeuvre which numbers approximately 185 compositions written from his teenage years until his death at the age of 63. The Catalogue indentifies a number of unpublished works, and adds a small group of compositions to his musical canon for the first time. Each work, whether complete or unfinished, published or unpublished, is described fully. Catalogue entries list and describe all known printed editions (including reprints) and manuscript copies of each work. In addition, they provide detailed compositional histories based on numerous letters, documents, and press accounts, many of which have not been published previously. Russian interest in Poulenc's music, manifested in press runs exceeding one million copies, is also revealed for the first time.
