enchancing animals and creatures. For hundreds of years, this extraordinary place has been ruled and protected by an old wizard, Lord Onofrio, who guards the peace and prosperity of the kingdom. When Zirium is invaded by the Shadow King's evil army, they break through the wizard's protection, putting the land and its inhabitants in grave danger. Now the only hope For The old wizard And The magical creatures of Zirium is a prophecy foreseeing the coming of three chosen ones who would lead an army against the Shadow King and defeat his dark forces. Who these chosen ones are, no one seems to

know. Three homeless and abandoned orphans, Hope Stevenson, Bonnie Hayes, and Daniel Watts, have no friends, no family, and no future. Suddenly they find themselves transported into the unknown land of Zirium. In Jeff C. Fuller's the Zirium Tales: The Shadow King, these three children have to make choices that not only affect their future but the future of everything that dwells in Zirium. Will the children make the right choices? Or will the Shadow King prove to be too formidable a foe, emerging victorious and destroying everything good?

Bioinformatics is a growing field that attracts researchers from many different backgrounds who are unfamiliar with the algorithms commonly used in the field. Python for Bioinformatics provides a clear introduction to the Python programming language and instructs beginners on the development of simple programming exercises . Ideal for those with some knowledge of computer programming languages, this book emphasizes Python syntax and methodologies. The text is divided into three complete sections; the first provides an explanation

rehabilitation. It contextualises the interventions described and provides pointers to enable the reader to explore the theory and research. This manual recognises the wide-ranging impact of mental illness and its ramifications on daily life, and promotes a recovery model of psychosocial rehabilitation and aims to empower clinicians to engage their clients in tailored rehabilitation plans. The book is divided into five key sections. Section 1 looks at assessment covering tools available in the public domain, instruments, scoring systems, norms and applications for diagnosis and measurement of symptoms,

cognitive functioning, impairment and recovery. Section 2 covers the full range of therapeutic interventions and offers advice on training and supervision requirements and evaluation of process, impact and outcome. Section 3 provides manuals and programs for interventions effectively provided as group activities. Section 4 explains how to design a full programme that integrates therapeutic interventions with group programmes as well as services provided by other agencies. The final section looks at peer support and self help, providing manuals and resources that support programmes and interventions

While Universal's Dracula and Frankenstein (both 1931) have received the most coverage of any of the studio's genre releases, it is the lesser known films that have long fascinated fans and historians alike. Starting with The Last Warning, a 1929 movie released as both a silent and a talkie, Universal provided a decade of films that entertained audiences and sometimes frustrated critics. Each of Universal's horror, science fiction and "twisted mystery"
