Readers will find this practical and comprehensive guide to spelling invaluable. Day-to-day advice on how to help those with difficulties is underpinned by information on the development of the English language and its spelling rules with explanations of common language problems. Chapters cover: spelling processes teaching and learning phonics individual cognitive and learning styles assessing and monitoring spelling progress teaching strategies and techniques. This is an essential companion for teachers, SENCos, and dyslexia specialists alike, as well as anyone interested in spelling and language difficulties.

Study & Master Mathematical Literacy Grade 11 has been especially developed by an experienced author team according to the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course

helps learners to master essential content and skills in Mathematical Literacy. The comprehensive Learner's Book includes: * thorough coverage of the basic skills topics to lay a sound foundation for the development of knowledge, skills and concepts in Mathematical Literacy * margin notes to assist learners with new concepts - especially Link boxes, that refer learners to the basic skills topics covered in Term 1, Unit 1-16 * ample examples with a strong visual input to connect Mathematical Literacy to everyday life.

Teaching Primary Mathematics covers what student teachers really need to know and why, including approaches to teaching and learning, planning and assessment, and using resources in maths teaching. It also provides a brief historical overview of the teaching of mathematics and examines strategies to enhance learning and development as a confident mathematician in the primary classroom. Informed by seminal and current research, and recent developments in education policy, the book also explores: - the role of mathematics within the primary curriculum - the development of mathematics as a subject of study - the knowledge that can be gained from considering international approaches to mathematics. This is essential reading for all students on primary initial teacher education courses including undergraduate (BEd, BA with QTS), postgraduate (PGCE, SCITT), and School Direct, and employment-based routes into teaching. Sylvia Turner is Senior Lecturer in the Faculty of Education at the University of Winchester.

Vol. for 1963 includes section Current Australian serials; a subject list.

Despite the Australian Constitution implying school education to be a state responsibility, the Commonwealth has increasingly interfered with state school education. The Australian Government Muscling in on School Education therefore offers a historical account of this government involvement in Australian education, from federation to the present day, providing a much-needed, fully updated and relevant overview the topic. Arguing that education has become an arena for competing political forces, this book examines the powerful influence of the Commonwealth over education and the political motives behind it, exploring how politics influences aspects of the curriculum, teaching standards, assessment and reporting, funding, teacher selection and policy more broadly. Ultimately questioning whether this influence is in the interests of the members of the community who depend on education, the book holds government engagement in education to account. Taking the major epochs of federalism as an organizing framework, the book's chapters include explorations of: The efficiency dynamic and the progressive years (1919-39) Postwar imperatives and the Menzies years (1949-72) Coordinative federalism and treading softly: the Whitlam years (1972-5) and Fraser years (1975-83) Corporate federalism: the Hawke/Keating years (1983-96) Supply-side federalism and globalization: the Howard years (1996-2007) National control and the Rudd, Gillard, Abbott, Turnbull and Morrison years (2007-15) A thorough and significant examination of the historical engagement of the Australian government in education, this book is essential reading for student teachers and postgraduate students in education studies and politics.

The OECD's Programme for the International Assessment of Adult Competencies (PIAAC) represents a comprehensive international comparative assessment of the information processing skills of adults vital for the full participation in social and economic life in the 21st century. PIAAC is now in its second cycle and continues a series of international assessments of adult skills that began in the mid-1990s with the International Adult Literacy Survey (IALS).

Study & Master Mathematical Literacy Grade 10 has been especially developed by an experienced author team according to the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course helps learners to master essential content and skills in Mathematical Literacy. The Teacher's File includes: * a weekly teaching schedule, divided into the four terms to guide the teacher on what to teach * extra project templates for teachers to choose from * solutions to all the activities in the Learner's Book.
