Here are answers to five important questions. By Winston Choi-Schagrin Definitive answers to the big questions. In short: Very green. But plug-in cars still have environmental effects. Here's a ...

Climate and Environment

For this new study, researchers tested for a link between the changes in size (morphological changes) and earlier spring migration – what's known in biology as a 'phenological change'.

Earlier migration triggered by climate change is NOT to blame for birds shrinking in size and their wings getting longer over the past 40 years, scientists say

The fields of historical biogeography and ecological biogeography have long been paradoxically disparate and distant from one another, with different terminologies, different concepts, and almost ...
