Xml A

the Basics ...

The process of creating the XML files as a concept, task, and reference topics through an XML authoring tool (Oxygen, FrameMaker) is called structured authoring or topic-based

Access Free

Xml A

authoring. These individual XML files are then mapped under a ditamap. Then the ditamap is published into a chosen multiple outputs such as PDF, HTML, WebHelp, etc.

Beginner's Guide

by Holzner,

Steven (ebook)

Reading XML in Alteryx is a little different than other input types and the reason for this is simple - XML is not a tabular data format and the data structure can

Access Free

Xml A

vary from one
file to the
next. To

effectively read
and parse XML
data in Alteryx,
you need to use
a combination of
tools, namely
the Input tool
and the XML
Parse tools.
